

Homework 1

Computer System and Assembly Language

Oct. 6th 2026

Homework 1

- This homework lets you practice assembly programming using a RISC-V simulator.
- Submit an assembly file in asm format with a code converting a C code on the next page.
- Submission due: 00:00 AM on Oct. 12th

Homework

- Make a RISC-V assembly code for the following C code

```
int main() {  
    int s = 0;  
    int i = 1;  
    while ( i <= 20 ) {  
        s += i;  
        i++;  
    }  
    return;  
}
```

❖ **Assumption** for variable allocation

```
s : t0  
i : t1
```
